

nLUMINAIRE gateway

Performance Meets Security with nGateway

The nGateway is a rack-mounted server that's ideal for small to large organizations that are committed to delivering high performance with the right balance of expandability and scalability.

Specifically, nGateway is engineered to optimize the latest technology advances across processors, memory, networking, storage, and accelerators to provide real-time insights based on a comprehensive, customizable view of system performance. It also unleashes additional power and functionality of the nLUMINAIRE Manager application, thereby greatly expanding its scope of lighting control.

Key Features & Benefits

- Offers a variety of features to simplify serviceability and increase system uptime
- Includes powerful systems management features to simplify local and remote management
- Delivers enterprise-class data protection
- Increases redundancy with dual power supplies and hardware RAID
- Integrates easily with any existing IT infrastructure
- Ensures seamless setup in a few simple steps

Technical Specifications

Server Specifications

From Factor	2U Rackmount
Power Supply	2 Flexible Slot power supplies, maximum depending on model
Memory	32GB
Storage	1TB
Processor	Intel(R) Silver 4210R CPU @ 2.40GHz
System Fan Features	Hot-plug redundant fans, standard

Environment Specifications

Operating Temperature	0°C to 35°C
Operating Altitude	maximum of 3050 m (10,000 ft)
Relative Humidity	8% to 90% - Relative humidity (Rh), 28°C maximum wet bulb temperature, non-condensing

Parts Included

Quantity	Component
1	nLUMINAIRE Gateway
1	Quick installation Guide

Standards

Emission classification (EMC)
RoHS

Ordering Information

	Description	Model	Image
nLUMINAIRE gateway	IP networked lighting server, rack mounted, 2U, dual power supply, nManager pre-loaded	CY-NL-GTY100
